

**Questions asked by the shareholders at the Annual Shareholders' Assembly of Makedonski Telekom held on 30 May 2025 and answers provided by the Company**

**Upon item 6 of the Agenda** - Proposed Resolution on the payment of the dividend of the Company for the Year 2024 and the determination of the dividend calendar

**Question:** Considering that the cut-off date for the payment of the dividend each year is in July, why is the payment of the same made in September, taking into consideration that it is an already accumulated profit?

**Answer:** The Company takes into account all the stated aspects and all the possibilities for the funds to be paid as early as possible. However, the provided payment plan comprises a plan of the exact inflow and outflow of the Company's funds during the period and the payment is planned accordingly. The Company targets the payment in line with the available funds and therefore the deadline is defined as foreseen.
