Subject: Explanation on the operation of AD Makedonski Telekomunikacii
for the period from 01.01.2007 until 30.06.2007

AD Makedonski Telekomunikacii is the largest company which provides services in the field of the fixed telephony in Macedonia. The telecommunication sector in Macedonia has been regulated by the implementation of the new Law on Electronic Communications which was adopted in March 2005. AD Makedonski Telekomunikacii has a Concession Contract on the basis of which the foregoing services may be provided by 31 December 2018. As of 2007, the fixed telephony market is being liberalized in practice.

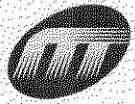

During the first half of the year 2007, the revenues mark an increase as a result of the revenue growth from the mobile telephony, where there is a continuous increase of the number of customers, despite the competition. The revenues from the fixed telecommunication services mark a slight decrease compared to the same period of the previous year. The Internet revenues still mark a continuous growth as a result of the increase of the number of ADSL Internet subscribers.

On the costs side, there is a decrease in the employee-related costs as a result of the optimisation of the number of employees and the decreased rate of the personal income tax. The depreciation also mark a decrease compared to the same period of the previous year. The other operating expenses mark a decrease as a result of the general cost reduction and the decrease of the FX losses compared to the same period of the previous year.

As announced earlier, Magyar Telekom, which owns 51.00% of AD Makedonski Telekomunikacii (the Company) through Stonebridge Communications A.D. Skopje under liquidation, is still investigating possible violations of the Group's policy or the applicable laws and regulations, which investigation includes the Company. This inquiry, which is being conducted by an independent law firm and supervised by the Audit Committee of Magyar Telekom, is still ongoing. As a result of the investigation, the IFRS Consolidated Financial Statements for 2005 and 2006 have not been audited yet. No assurance can be given that as a result of the investigation the IFRS Consolidated Financial Statements for 2005 and 2006 and the financial statements or financial information referring to any other period, including any period of 2007, will not vary from those submitted and published prior to the completion of the investigation and the audit of such financial statements and data.
